WHAT'S NEXT, *West Virginia?*

to your community!

Following the devastating floods of 2016, many West Virginia communities are considering what steps are next as they build the future they want.

What's Next, West Virginia is an initiative designed to help these communities--and all West Virginians--talk and work together to do just that.

If you'd like to be part of organizing a *What's Next* initiative in your community, please join us. Bring others from your community who can help you make it happen.
