

**Ceredo Compression Station  
Community Air Monitoring Meeting**

**OCTOBER 9, 2019 | 6:00 – 7:00 PM**

**Spring Valley Presbyterian Church,  
1129 Spring Valley Dr, Huntington, WV 25701**

**Join EHP and OVEC as we share the results of a community air monitoring project conducted around the Ceredo Compressor Station. We will also share tools and resources offered by both organizations that can be used to educate community members, community groups, and local officials and decision makers about the health and environmental impacts of local air pollution. Participants in this meeting will have the opportunity to complete health surveys on site, or register to complete them online at a later date.**

**No registration required, all community members are welcome to attend!**
